North Fork Patrol -Mark Heaphy spoke about the different hunting seasons and the need for land owner permission for hunters. He also suggested to not be confronting anyone, but to take a picture or write down the license and turn it in to the patrol. If anyone is hunting on your property to make sure and give them written permission for this year or the year they are hunting. There was lots of discussion on different scenarios of hunting and retrieving. But all came down to having permission from land owners.

Larry requested a Chairman for hall supplies, and appointed Randy Kenyon.

History Report -Lois Walker reported that she and Loura Brooks have been working on history with various present and past North Forkers.

Larry brought up about the membership standing up for issues it believes in. There was a lot of discussion about being careful about upsetting membership so it was suggested that we inform the membership of different issues so they have the right to make their feelings known. It was agreed on that a group can get something done better than one person.

The Winter Interlocal is next February. Larry wants anyone with questions to contact him or Bill Walker.

It has been decided the pre meeting talks will be continued.

Different members came to Larry asking what happened to the Trail Creek Irregulars. He stated they got old the youngest member is 75, so they need some younger members to help with fire protection etc. The ones left maybe old but still can train. He concluded by asking for replacement volunteers and they will set up some training.

Larry reported that we have had some minor thefts in the hall.
